# NEARLY ME® Advanced Course on “Fitting the Easy & Difficult Mastectomy Patient”

*Comprehensive 1 day course approved by  
BOC & ABC for Advanced Mastectomy  
Fitters for Continuing Education (CPE) credits.*

## **Who should attend:**

- Anyone who is currently fitting mastectomy products or is a Certified Mastectomy Fitter and requires advanced Continuing Education

*Credits...*

- Orthotists/Prosthetists
- Home health care fitters
- Lingerie boutique fitters
- DME fitters
- Pharmacy fitters
- Hospital fitters

## **Why you should attend:**

- Attendee will learn how to better assess, formulate and implement a treatment plan that works for each individual patient regardless of her physical condition or surgery type. You will learn what variations are between mastectomy bras, the reasons why these variations affect the choice of the appropriate breast form style and size. Fitter will learn to evaluate the “best” fit for each individual patient.

## **Included with the school/workshop:**

- A comprehensive training manual that will include:
  - Information on assessing, formulating and implementing treatment plan for patient
  - Features and benefits of NEARLY ME® products
- Coffee and water provided throughout the day
- Tape measure with other promotional items
- Hands on fitting with a model

***We begin promptly at 8:30 a.m. with the following schedule during the day:***
