

Introducing the newest styles in the line of...

NEARLY ME EXTRA LITES™ **BREAST FORMS**

Now available in three different styles with the latest additions of the new #315 Oval breast form and the new #335 Classic breast form.

Due to the success of the NEARLY ME EXTRA LITES™ #395 Semi-full Triangle, the popular line is being expanded with two new extra lightweight breast forms. In addition to the #395 Semi-full Triangle, Nearly Me Technologies will now offer the **NEARLY ME EXTRA LITES™ #315 Oval** and the **NEARLY ME EXTRA LITES™ #335 Classic**.

The new **NEARLY ME EXTRA LITES™ #315 Oval** is a symmetrical breast form with a semi-full front profile. The back of the form is slightly concave with a flat edge to fit more comfortably against a flat chest wall. Available sizes: 1-14.

NEW #315 Oval

As an asymmetrical breast form, the new **NEARLY ME EXTRA LITES™ #335 Classic** breast form fits only the right or left side individually. It has a full front profile and a curved back contoured to fit naturally and securely against the chest and rib cage. Available sizes: 1-12.

NEW #335 Classic

The original style of NEARLY ME EXTRA LITES™ breast forms, the **#395 Semi-full Triangle** is a symmetrical form to fit both the right and left sides. Like the #315 Oval, it has a semi-full front profile with a slightly concave back and a flat edge to fit more comfortably against a flat chest wall. Available sizes: 1-16.

Benefits:

- Made with "whipped silicone" making them 35% lighter in weight than standard silicone.
- Extra lightweight to aid in balancing with the remaining natural breast.
- Lighter weight may also help reduce neck and back strain.
- Supple, highly resilient polyurethane film for a softer, more natural feel and allows the form to easily conform to any bra cup.
- Comes in convenient storage box with optional cloth comfort cover.
- Available in 2 skin tones: Beige and Soft Sable.
- 2 year warranty against manufacturing defects.
