

Nearly Me®

April 2016 — FOR IMMEDIATE RELEASE

NEARLY ME TECHNOLOGIES, LLC INTRODUCES THE NEW #521 POST-OP CAMI WITH ZIPPER

A highly-anticipated new garment, the NEARLY ME® #521 Post-Op Cami with Zipper offers an overall relaxed and flattering fit and style. Currently available in white* only, this post-surgery mastectomy camisole from Nearly Me is the perfect addition to any wardrobe.

This new design features a zipper in the front to help ease discomfort during application after surgery or for every day use. The garment is great for relaxation and comfort whether lounging at home or when worn under clothing.

A v-neckline gives a feminine appearance while maintaining a close fit with modest coverage of the chest while a light lace accent along the neckline adds a delicate touch.

A slightly elastic band under the chest offers light support to increase comfort along with a confident fit and feel. Sewn-in cotton pockets are moisture-wicking and breathable while the additional seams in the cups add structure and security where needed most.

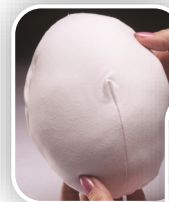

The #521 Post-Op Cami with Zipper works great with NEARLY ME® Fiberfill puffs as well as NEARLY ME® Casual Foam Forms. Breast forms and puffs are sold separately.

Sizes: Small—3X**

Contents: 50% cotton, 43% polyester, 7% spandex

*Black available Fall 2016

**Note: Sizes run large

Sold separately:
(left) Fiberfill Puff
(below) Foam Breast Form
