

Nearly Me®

November 2015— FOR IMMEDIATE RELEASE

NEARLY ME TECHNOLOGIES, LLC INTRODUCES THE ALL NEW #550 SPORTS BRA

Available in a popular Heather Gray*, this new mastectomy sports bra from Nearly Me® is the perfect addition to any wardrobe. One of our most highly-anticipated bras, the #550 Sports Bra offers moderate support overall with a relaxed fit and style. The curved v-neckline offers a feminine appearance and a close fit with modest coverage of the chest wall.

A light pink accent on the wide elastic band adds a stylish touch while a super soft backing on the band offers comfort and smoothness against the skin. The elastic is firm and supportive for a snug, secure, and confident fit and feel.

Sewn-in polyester pockets are moisture-wicking and are a “jersey-like” style fabric to add breathability (see image). The seams in the cups offer even more support and security where needed most.

The straps are 2” wide in the front and gradually taper down to a 3/4” adjustable, firm elastic strap in the back. They offer a soft, smooth feel and eliminate the worry of “too much stretch.” The straps are also padded in the front and on the shoulders for a cushioned, more comfortable feel.

Sizes: 34-42 AA-D
36-42 AA-DD

Bra fabric: 58% polyester, 32% cotton, 10% spandex
Cup fabric: 100 % polyester

*Black available soon!

Jersey-like style fabric
